NO CAVITY CLUB FOR KIDS

A Rewards Program Designed Specifically for our Younger Patients

At Imagine, it's not just about fixing cavities, it's about preventing them as well. That's why we created the No Cavity Club, just for Kids.

Here's how it works:

At the end of every cleaning appointment we check for cavities. If no cavities are found, any patient age 18 or younger will be eligible to put their name into the No Cavity Club box. At the end of each month we will draw a name from the box and the winner will receive a VISA gift card that they can use on something cool, neat or groovy (but preferably not on something that will rot their teeth).

Rewarding good home care is the best way to develop good oral health habits in kids and that's what the No Cavity Club is all about!
