

*Our way of saying 'thank you' for your referrals*

The biggest compliment we can receive from our patients is the referral of a family member or friend. That invitation to become part of our patient family is the what makes our practice grow and stay on the cutting edge of dental care. As our way of saying thanks for putting your trust in us, we have created the TOOTHPERKS program.

***Here's how it works:***

Our computers continually track all the new patients at Imagine. Whenever a new patient schedules an appointment we always ask who referred them. When that person tells us you referred them, your name will go into that database. For every new patient that schedules and presents for their appointment, you will receive a \$25 Target gift card. No gimmicks... no hassles... no kidding. It's really that simple!
